Phone : +62 8132 9158 543

Birth Date : 26 June 2005 (21 Years Old)

Address : JL. Keputih Perintis I, No. 19

SUMMARY

As a Business Statistics student at Institut Teknologi Sepuluh Nopember, I have completed several data-driven academic projects involving financial analysis, customer satisfaction studies, and risk modeling. I process and analyze data using Excel, SQL, and Python (Pandas, NumPy), transforming raw datasets into clear insights and actionable recommendations. Detail-oriented, adaptable, and comfortable working in teams, I am eager to contribute as a data analyst in the financial or business industry.

EDUCATION

2023 - Now | Business Statistics, Institut Teknologi Sepuluh Nopember (ITS)

- Expected Graduation: 2027
- GPA: 3.07/4.00 (after 5 semesters)
- Relevant Coursework: Introduction to Business Economics, Financial Institutions and Industry, Financial Management, Financial Mathematics, Forecasting Methods, Statistical Methods, Operations Research

2021 - 2023 | Natural Science, SMA Negeri 2 Madiun

CERTIFICATION

2025 | SmartPath Data Analyst International Bootcamp: Overview of Data Analysis, Career, and Salary

- Completed a bootcamp covering the fundamentals of data analysis, career pathways, and industry insights, with an introduction to key skills and real-world applications of data-driven decision making.

EXPERIENCES

Jan 2025 - Dec 2025 | Staff of Development Division, HIMADATA-ITS

- Supported member development programs through training and workshops by assisting in planning, coordinating logistics, collaborating with team members, and contributing to program evaluation and participant engagement.

Aug 2025 - Dec 2025 | Academic Project: Stock Investment Analysis

- Analyzed publicly listed companies performance by forecasting expected returns using CAPM, multiple regression, and time series models (ARIMA). Processed and modeled financial data using Excel and Python to generate investment insights and support data-driven decision making.

Jul 2024 - Nov 2024 | Staff of Logistics Divison, Olympiad of Statistics Action (OLFACTION) ITS

- Managed event logistics, including equipment and venue preparation, coordinated setup and distribution of materials, monitored inventory, and collaborated with cross-divisions to ensure smooth competition execution.

Jun 2024 - Aug 2024 | Staff of Surveyor and License, GERIGI ITS 2024

- Supported data collection and administrative verification by validating participant data, monitoring documentation, and coordinating with internal teams. This role strengthened my attention to detail, administrative skills, and communication in a structured environment.

LANGUAGE SPOKEN

Bahasa Indonesia, English

TECHNICAL SKILLS

- **Programming & Database:** Python (Pandas, NumPy), SQL, PostgreSQL
- **Data Analysis & Statistical Modeling:** Regression, ANOVA, Forecasting, Design of Experiments (DoE), R, Minitab, SPSS, GeoDa
- **Visualization & Dashboard:** Power BI, Tableau, Looker Studio, Excel (Pivot Table, Power Query)
- **Digital & Design Tools:** Canva, Figma, CapCut
